**Schlage® Unveils New IP Cameras
to Compliment Schlage LiNK System at CES 2009**

***- Cameras Allow Homeowners to View Real-Time Video
With The First and Only Wireless-controlled Door Lock System -***

Las Vegas, NV, January 8, 2009 – Schlage® today launched a new Schlage LiNK IP camera at The Consumer Electronics Show. Engineered to work in conjunction with the mobile phone and online applications of the Schlage® LiNK, the first and only-wireless controlled door locks, the new IP cameras provide real-time video to enhance homeowners' remote monitoring capabilities. By fusing the use of the new IP Cameras with their Schlage LiNK door locks, homeowners will have the ability to visually confirm their children, family members, friends, houseguests and even service providers before granting them entry.

The new Schlage LiNK solution will be demonstrated in **CES Booth South Hall 1 20350 in the Las Vegas Convention Center January 8 – 11, 2009.**

“Schlage has been dedicated for more than 85 years to continually developing product innovations that not only deliver first-rate security but also add convenience to our customers' busy lives.” said Dwight Gibson, general manager, Intelligent Residential Security, for Ingersoll Rand, the parent company of Schlage “The launch of the new Schlage LiNK IP camera expands our security products portfolio beyond door locks to help homeowners create a truly customized home security system that meets their unique needs.”

Schlage LiNK IP Cameras are designed for plug-and-play with the Schlage LiNK system and are preloaded with software that simplifies the user configuration process. The IP camera is integrated with the Schlage LiNK online application, which is available to homeowners for a \$12.99 monthly subscription fee. Additional levels of service will include the storage of video.

For more information about the new Schlage LiNK IP cameras, please visit CES Booth South Hall 1 20350.

About Schlage & Ingersoll Rand Security Technologies

Schlage® is the leader in security devices, trusted for more than 85 years, spanning both the commercial and residential markets. Commercial grade quality is built into every Schlage® product. The brand is on the forefront of developing cutting-edge technology and innovation such as wireless security products and biometrics, among others. www.schlage.com

Ingersoll Rand Security Technologies is a leading global provider of products and services that make environments safe, secure and productive. The sector's market-leading products include electronic and biometric access control systems; time and attendance and personal scheduling systems; mechanical locks and portable security, door closers and exit devices, steel doors and frames, architectural hardware and technologies and services for global security markets.

About Z-Wave

Z-Wave® is the first technology to bring affordable, reliable and easy-to-use wireless control to every aspect of daily life – the home, consumer electronics, healthcare, and energy use, to name a few. Z-Wave is an award-winning, proven and interoperable wireless mesh networking technology that allows a wide array of devices in and around the home to communicate including lighting, appliances, HVAC, entertainment centers, and security systems. Z-Wave brings many benefits to everyday life including remote home monitoring, home healthcare, safety and security, and energy conservation. Z-Wave certified products are currently available from leading consumer brands in more than 170 products. Z-Wave is the recipient of the 2006 *Wall Street Journal* Technology Innovation Award in the wireless category, the CNET "Best of CES Award" in the enabling technologies category, along with *PC World's* 2006 World Class Award, which recognizes the 100 best technologies and products of the year. For more information about Z-Wave please visit www.z-wave.com.

About the Z-Wave Alliance

Formed in January 2005, the Z-Wave Alliance is a consortium of leading companies in the home technology space dedicated to solidifying Z-Wave as the standard for wireless home control products. The principal members include Cooper Wiring Devices, Danfoss, FAKRO, Ingersoll Rand Security Technologies, Intel, Intermatic, Leviton, Monster Cable, Wayne-Dalton, Universal Electronics Inc. (UEI) and Zensys. Its members lead the home controls market, providing leading edge products and systems that deliver increased comfort, convenience, safety and security. Z-Wave technology is the foundation of all products manufactured by the Alliance members. For more information about the Z-Wave Alliance, visit www.zwavealliance.org.

Z-Wave® is a registered trade mark of Zensys, Inc. and its subsidiaries in the United States and other countries.
